INTEGRATED WATER USE LICENCE GRANTED FOR VELE COLLIERY

MC Mining Limited ("MCM" or the "Company") is pleased to announce that the South African Department of Water and Sanitation has granted an Integrated Water Use Licence in terms of the National Water Act (Act 36 of 1998) for the Vele Colliery's stream diversion and associated infrastructural activities.

This approval completes the full regulatory suite of all authorisations required for the Vele Colliery. As previously advised, the final decision on whether to proceed with the Plant Modification Project will be placed before the Company's Board, which will include an assessment of long term pricing as well as logistics considerations. The Board will evaluate all options available, which will be communicated at the appropriate time.

Mr David Brown, Chief Executive Officer, commented:

"We welcome this decision and the securing of all the regulatory authorisations for the Colliery. Furthermore, this decision is a confirmation of government's support of the Company's co-existence model which facilitates the co-existence of mining, agriculture and heritage land uses in line with the historic biodiversity offset agreement between the Department of Environmental Affairs, the South African National Parks and MCM."
