ANNOUNCEMENT **30 October 2026**

ACTIVITIES REPORT FOR THE QUARTER ENDED 30 SEPTEMBER 2026 (FY2027 Q1)
FOR MC MINING LIMITED (MC Mining or the **Company)**
AND ITS SUBSIDIARY COMPANIES

HIGHLIGHTS

Operations

- Health and safety performance improvement across the group remains a top priority. The Makhado steelmaking hard coking coal Project ("**Makhado Project"** or "**Makhado"**) had one lost time injury ("LTI") for the quarter whilst Uitkomst Colliery ("**Uitkomst Colliery"** or "**Uitkomst"**) had no LTIs for the quarter;
- Key milestones achieved at the Makhado Project during the quarter included:
    - C4 hot commissioning and plant start-up progressed during the quarter. ROM feed, coal washing and the production of both hard coking coal ("HCC") and thermal coal ("TC") were demonstrated, with the plant remaining in the ramp-up phase at quarter end;
    - The 14km, 22kV Paradise overhead power line and the principal support services required for commissioning were in place during the quarter;
    - The eastern wellfield bulk water system supplied process water to the CHPP, while work on the remaining water and associated infrastructure continued;
    - Pit-to-port logistics were commissioned and tested. Two 80-tonne certified weighbridges were operational and 4,846 tonnes of HCC were delivered to Matola Port during the quarter;
    - The CHPP demonstrated washing capacity of approximately 7,600 tonnes per day and produced HCC at approximately 10% ash during commissioning. Plant optimisation,

performance testing and completion of outstanding infrastructure remained key priorities at quarter end.

- Evaluations of geological and mine planning information relating to the Company's Vele Aluwani semi-soft coking coal ("**SSCC"**) and thermal coal ("**TC"**) Colliery ("**Vele Colliery"** or "Vele") are still ongoing; and

Corporate

- Available cash and facilities was US$170 thousand at the period end (FY2026 Q4: US$2.9 million);
- During July 2026, MC Mining drew down US$2.246 million under the unsecured convertible promissory note facility provided by KDG;
- On 13 August 2026 the Company entered into agreements with its controlling shareholder, Kinetic Development Group Limited (KDG), for capital support of up to US$16,000,000: an unsecured bridge loan of US$8,000,000 bearing interest at the Reserve Bank of Australia's outstanding business loan rate for medium business plus 3.00% per annum and repayable three months after drawdown, and a subscription for 76,591,672 ordinary shares for US$16,000,000 in two equal tranches at US$0.2089 per share. The first tranche is settled by set-off against the bridge loan principal; the second is payable in cash and is conditional on the Makhado Project having commenced production;
- Resignation of Yi (Christine) He as Managing Director and Chief Executive Officer in July 2026; and
- Appointment of Jianheng (Albert) Deng as interim Managing Director and Chief Executive Officer in July 2026.

Events subsequent to the end of the quarter

- Sales Agreements were entered into for all the finished product on the floor and at the Port for approximately 46kt.
- All operations have been temporary suspended while final funding arrangements are concluded.

DETAILED QUARTERLY OPERATIONS REPORTS

Makhado HCC Project – Soutpansberg Coalfield, Limpopo Province, South Africa (67% owned)

Project Overview. The Makhado steelmaking hard coking coal Project ("Makhado Project" or "Makhado") transitioned from construction into hot commissioning and operational ramp-up during the quarter. C3 commissioning of the coal handling and preparation plant ("CHPP" or "Coal Plant") was completed on 22 May 2026. During the quarter, ROM feed, coal washing and the production of HCC and TC were demonstrated, while C4 commissioning, performance testing and plant optimisation continued. The foundation phase is designed to produce approximately 800,000 tonnes per annum of HCC 64 Mid Vol at steady state. The contiguous Greater Soutpansberg Projects ("GSP") hold granted Mining Rights and provide potential longer-term development optionality.

Health, Safety and Regulatory Compliance and Environmental Performance. The Makhado Project had one LTI for the quarter. Employee health initiatives focused on raising awareness on mental health and risk management; high leadership visibility on site. The workforce onsite at 737 people during the quarter with the host community well-represented in the labour complement and support services with more employees being onboarded into our processing plant.

The mine continued to be built with zero reportable occupational health, safety and environmental incidents and keen emphasis being placed on environmental protection and management. The Department of Mineral and Petroleum Resources (**DMPR**) inspectorate undertook a comprehensive and multi-discipline onsite inspections onsite for this quarter and all visits have been positive during the change from commissioning into operation phase in Makhado colliery with positive feedback from the DMPR inspectors that visited the site. The Company continues to promote collaborative and constructive relationships with regulatory authorities and host community stakeholders with also the establishment of Makhado Colliery Women in Mining (WIM) structure.

Project Development and Operational Ramp-up. The Makhado Project progressed through hot commissioning and operational ramp-up during the quarter. Critical support services and pit-to-port logistics were commissioned and tested, while C4 completion, performance testing and the close-out of remaining infrastructure continued. Key developments included:

- **Open-pit mining: Mining and coal extraction continued from the East Pit to support CHPP commissioning and ramp-up.** At the end of the quarter, 30 September 2026, the mine recorded approximately 99,777 tonnes on ROM stockpiles, with approximately 43,720 tonnes of product.
- **Coal Plant: CHPP construction and C3 commissioning were completed, and C4 hot commissioning continued during the quarter.** ROM feed, coal washing, HCC production and TC production were demonstrated. The plant achieved a demonstrated washing rate of approximately 7,600 tonnes per day and HCC quality of approximately 10% ash during commissioning. The plant remained in ramp-up at quarter end, with performance testing, optimisation and handover activities continuing.
- **Bulk power supply: The 14km, 22kV Paradise overhead power line was commissioned to supply up to 7.**5MVA from the national grid via the nearby Paradise substation.
- **Bulk water supply: The eastern wellfield system supplied process water to the CHPP.** Completion and optimisation of the remaining water infrastructure continued during the quarter.
- **Product logistics: Pit-to-port logistics were commissioned and tested.** Two 80-tonne certified weighbridges and the on-site laboratory were operational, supported by external certified laboratories for independent quality control.
- **First product to port:** Road haulage commenced on 3 August 2026 and approximately 2,500 tonnes of HCC were delivered to Matola Port, demonstrating the mine-to-port logistics chain.

Outlook. Finalise the funding requirements and complete C4 commissioning, performance testing and plant handover; close out the remaining infrastructure; optimise mining and CHPP performance;

improve product yields and volumes; and establish sustainable revenue generation during the ramp-up phase.

Uitkomst Colliery – Utrecht Coalfields, KwaZulu Natal Province, South Africa (84% owned)

Operations at Uitkomst remain suspended. During this period, the Company is evaluating strategic options aimed at unlocking value and preserving future optionality.

Health, Safety and Environmental Performance. Uitkomst Colliery recorded no LTIs and no reportable occupational health, safety or environmental incidents during the quarter (FY2026 Q4: nil LTIs).

Vele Aluwani SSCC and TC Colliery – Limpopo (Tuli) Coalfield (100% owned)

Operations at Vele remain suspended pending the conclusion of a re-engineered business plan. Work continues on investigating a commercially viable logistics solution for the colliery's coal products. Vele recorded no LTIs during the quarter (FY2026 Q4: nil LTIs). The Department of Water and Sanitation completed a positive inspection during the quarter.

Greater Soutpansberg Projects (GSP) – Soutpansberg Coalfield (74% owned)

The GSP recorded no LTIs (FY2026 Q4: nil) during the quarter. The GSP are a group of mineral tenements, held as Mining Rights and satellite to the Makhado Project.

Appendix 5B – Quarterly Cash Flow Report

The Company's available cash balance and facilities as at 30 September 2026 was US$170 thousand. The aggregate amount of payments to related parties and their associates, disclosed as item 6.1 of the September 2026 quarter Appendix 5B, was US$10k, comprising executive and non-executive director remuneration.

Jianheng (Albert) Deng

Chairman, Interim Managing Director and Chief Executive Officer

About MC Mining Limited:

MC Mining is an ASX/JSE-listed coal exploration, development and mining company operating in South Africa. MC Mining's key projects include the Uitkomst Colliery (metallurgical and thermal coal), Makhado Project (hard coking coal), Vele Colliery (semi-soft coking and thermal coal), and the Greater Soutpansberg Projects (coking and thermal coal).

All figures are denominated in United States dollars unless otherwise stated. Safety metrics are compared to the preceding quarter while financial and operational metrics are measured against the comparable period in the previous financial year. A copy of this report is available on the Company's website, www.mcmining.co.za.

Forward-looking statements

This Announcement, including information included or incorporated by reference in this Announcement, may contain "forward-looking statements" concerning MC Mining that are subject to risks and uncertainties. Generally, the words "will", "may", "should", "continue", "believes", "expects", "intends", "anticipates" or similar expressions identify forward-looking statements. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those expressed in the forward-looking statements. Many of these risks and uncertainties relate to factors that are beyond MC Mining's ability to control or estimate precisely, such as future market conditions, changes in regulatory environment and the behaviour of other market participants. MC Mining

cannot give any assurance that such forward-looking statements will prove to have been correct. The reader is cautioned not to place undue reliance on these forward-looking statements. MC Mining assumes no obligation and does not undertake any obligation to update or revise publicly any of the forward-looking statements set out herein, whether as a result of new information, future events or otherwise, except to the extent legally required.

Statements of intention

Statements of intention are statements of current intentions only, which may change as new information becomes available or circumstances change.
